

Assignment 4. Mateo Tecum Jacinto

Turn in	
Housing Drawing	Should look exactly like drawings on Pg's 400-401. Make a drawing with 2 sheets. (make sure to include part file!)
Side Cover Drawing	Should look exactly like drawings on Pg's 414 and 427. Make a drawing with 2 sheets (make sure to include part file).
Top Cover Drawing	Should look exactly like drawing on Pg 429 (or 449). (Make sure to include part file.)
Offset Shaft Drawing	Should look exactly like drawing on Pg 451. (Make sure to include part file.)
Worm Gear Drawing	Should look exactly like drawing on Pg 472. (Make sure to include part file.)
Worm Gear Shaft Drawing	Should look exactly like drawing on Pg 491. (Make sure to include part file.)

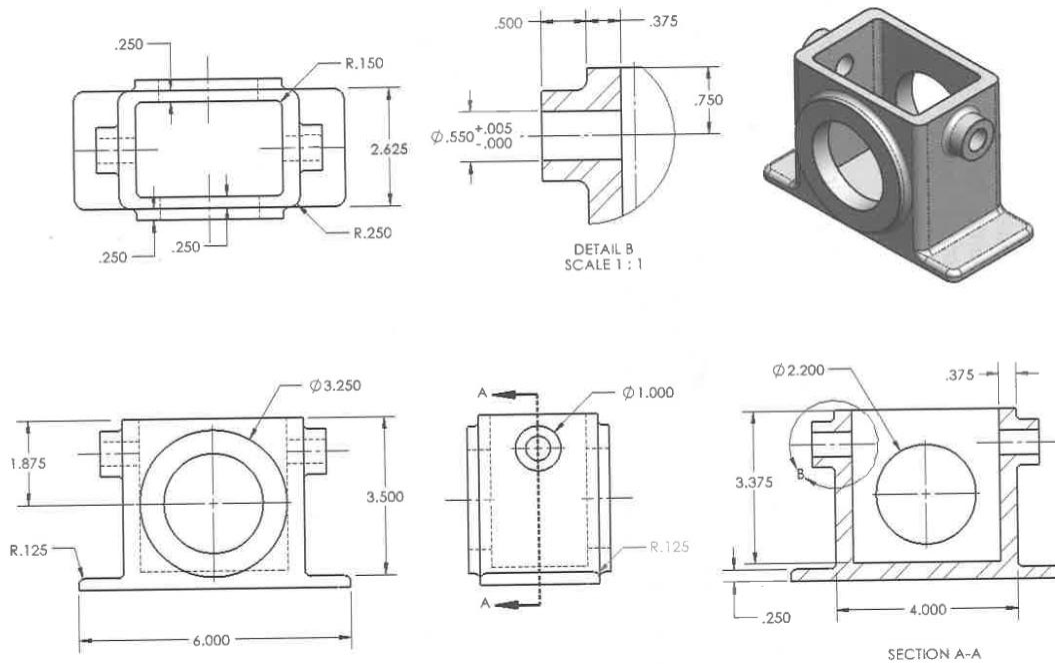

☒ NOTE that you should have all of the components (dimensions, annotations, and views) of the drawing, BUT there may be some minor differences in font location, orientation etc. This is fine.

We **do not** expect you to get out a ruler to put the dimensions exactly (down to the nearest .001") where they are in the book!

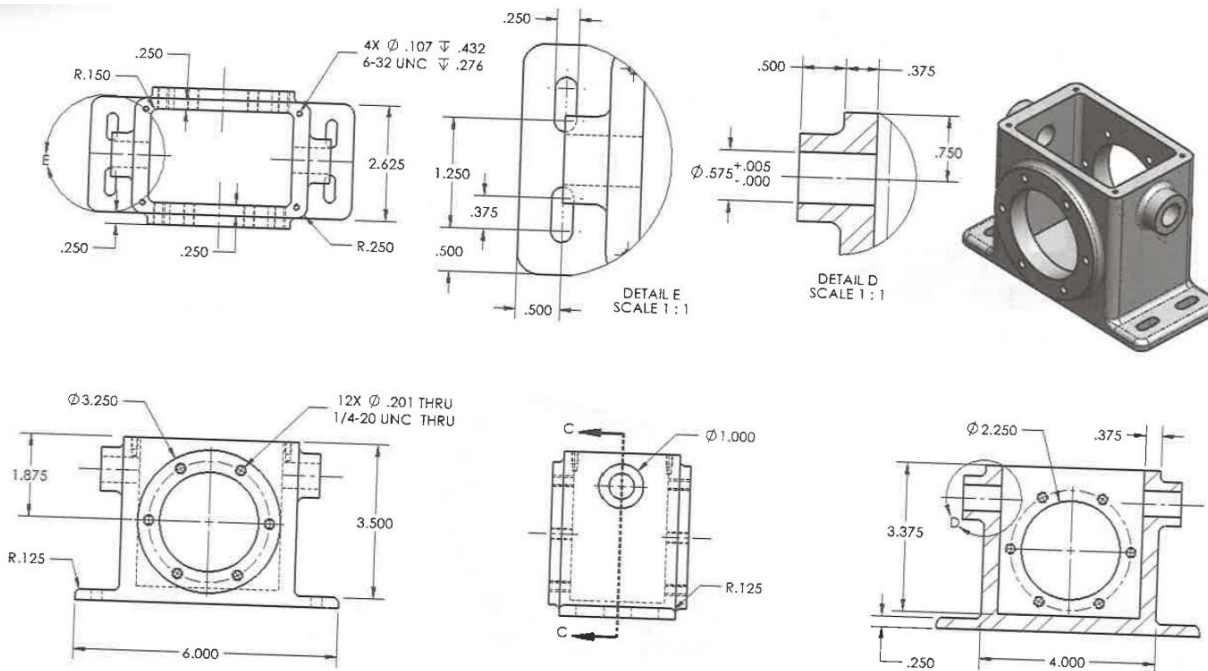

☒ There will be a quiz at the beginning of class on Sept 23rd. I will show pictures of different views and you will need to name the type of view, e.g. Section View etc.
